Curious software engineering student and rapid problem solver with a deep passion for the startup ecosystem—thriving in fast-paced, high-ownership environments where I can build software, wear multiple hats, and help scale products from zero to one. I have won 17+ national and international competitions and built major projects like AGROTHINK (an AI agriculture platform on Huawei AppGallery), DHL IncidentHub, and the Bridge to Malaysia SaaS using AI tools like Windsurf and Antigravity. I learn quickly, deliver fast, and want to stay loyal to a growing company where I can help scale products and grow into key technical leadership roles.

Technical Skills

Languages:	Dart, TypeScript, JavaScript, Java, C++, Python, HTML/CSS, SQL
Mobile:	Flutter, Provider, Huawei HMS SDK, Lottie, Flutter Animate
Frontend:	Next.js, React, Vue.js, Tailwind CSS, shadcn/ui, Radix UI, Framer Motion
Backend:	Supabase, Firebase, PostgreSQL, REST APIs, Upstash Redis
AI & Automation:	Google Gemini API, Firebase AI, Flowise, UiPath RPA, Windsurf, Antigravity

Projects

AGROTHINK — AI-Powered Agricultural Platform <i>Founder & Sole Developer Flutter, Firebase, Huawei HMS, Gemini AI</i>	2024 – Present <i>LaunchX Top 15</i>
- Developed a full-stack mobile app featuring AI crop disease detection and smart farming advisory for SE Asia smallholder farmers. - Published on Huawei AppGallery as sole developer; won 10+ national/international competitions and selected for LaunchX Top 15.	
DHL IncidentHub — AI Incident Management <i>Full-Stack Developer Next.js 16, Supabase, Gemini 2.5 Flash, UiPath RPA</i>	2026 <i>Live Demo</i>
- Unified 5 complaint channels into one AI workflow; UiPath RPA bot processes incidents 5× faster (85s vs 7min manual). - Integrated Gemini AI for 14-field extraction, 8-dept classification, and compliance flagging, projecting RM 600K/year savings.	
Bridge to Malaysia — Student Application SaaS <i>Full-Stack Developer Next.js 14, Supabase, Google APIs, Resend</i>	2026 <i>GitHub</i>
Designed and built a SaaS managing student university applications from Bangladesh to Malaysia using Supabase, Google Drive API, React PDF, and Redis.	
CarBuddy — AI Microsleep Detection (MVP) <i>Team Leader & Lead Developer Python, Computer Vision, Shell SSSVC</i>	2025
Led development of a real-time camera-based drowsiness detection app; won Shell SSSVC 2025 National Grand Winner (RM 10K, 200+ teams); demoed to Malaysia's Minister of Transport.	
AI Chatbot — Lead Gen & Meeting Scheduler (Flowise)	Jun 2025
Built production-ready AI chatbot in 60 minutes under competition pressure; won JDLD 2025 Champion out of 9 universities.	

Selected Achievements (Total Prize Winnings: RM 25K+)

🏆 Shell SSSVC 2025 – National Grand Winner (RM 10K)	🏆 UTM-KNU SISC 2025 – Gold Champion (S. Korea)
🏆 UXHMAC 2025 – Grand Prize Champion (RM 9K)	🏆 UTM AI Ideathon 2025 – 1st Prize (48 teams)
🏆 ASEAN Startupthon 2025 – Malaysia Champion	🏆 JDLD 2025 – Tertiary Champion (AI Chatbot)
🏆 IPPIC 2025 – Gold Medal (Beat Masters/PhD)	🏆 DINS 2025 – Gold Medal (MDEC-endorsed)
🏆 Digitalization Pitching 2025 – Champion (RM 1K)	★ LaunchX 2025/2026 – Top 15 Startup

Experience

Administrative Manager (Part-Time) <i>Step 1 Fitness</i>	Jul 2025 – Present <i>Johor Bahru, Malaysia</i>
Spearheaded digital marketing strategy, content creation, financial reporting, and CFO-level strategic planning.	
Exco Member — Sponsorship & Entrepreneurship <i>PERSAKA (Faculty of Computing Student Body), UTM</i>	Aug 2023 – Present <i>Johor Bahru, Malaysia</i>
Secured corporate sponsorships for faculty events and coordinated student entrepreneurship programmes.	

Education

B.Comp.Sc. (Software Engineering) — Expected 2027 <i>Universiti Teknologi Malaysia (UTM) — Faculty of Computing</i>	Feb 2022 – Present <i>CGPA: 3.21/4.00 · Global Star Award</i>
